1

HOW DOES IT WORK?

1. Insert the plug into a 5A, 3-pin socket.
2. Plug the charging connector into your Ather.
3. Always check the charger vents. They should never be blocked to allow for proper air flow.
4. The LED on the charger will start blinking, the moment charging starts.

2

THE SPECIFICATIONS

Operating voltage & wiring	185 V AC - 275 V AC (Single phase)
Frequency	50 Hz
Output	59V – 6.0A DC (PC000000195) 59V – 8.0A DC (PC000000214) 59V – 8.0A DC (PC000000412)
Operating temperature	0°C - 45°C
Weight	1.5kg
Dimensions	180*110*65 mm

CHARGING

What do the different LED colours indicate?

Solid Green Light

Connected to the vehicle - charging is done.

Not connected to the vehicle - charger is ready for use.

Blinking Green Light

Charging is in progress.

Blinking Amber Light

Charger software is being updated over-the-air (OTA).

Keep it connected to the vehicle until it turns green.

Solid Red Light

Fault in the charger. Switch OFF the power for 10 seconds and switch it ON again. If it fails to restart after 3 attempts, get in touch with customer support.

No Light

No power flow. Switch OFF and then switch ON the power. If the charger fails to restart after 3 attempts, contact customer support at +91 7676600900

SAFETY INSTRUCTIONS

BEFORE CHARGING

- ✓ To start charging, insert the 3-pin plug into the 3-pin socket properly, and ensure that the connection is not loose.
- ✓ Use the charger only on electrical lines secured by a fuse or MCB.
- ✓ Ensure that the area is protected against water spillage/rain and isn't damp.
- ✓ Ensure that the wall socket has an individual switch and the plug is inserted only when the switch is OFF.
- ✓ Ensure that the cable is not stretched from the plug/socket.
- ✗ Do not use the charger, if it is defective, appears cracked, frayed, broken, or otherwise damaged, or if it fails to operate.
- ✗ Do not use extension cords and/or extension boxes.
- ✗ Do not use a damaged socket.
- ✗ Do not operate with wet hands.
- ✗ Do not use the charger with cables still wound around it. Unwind it and then start charging.

WHILE CHARGING

- ✓ Turn ON the switch after ensuring the above points.
- ✓ Once charging is done, wind up the cables around the charger and lock the cables with the strap on top. Do not strain or pull the cable while winding. Keep it in the bag that comes with this pack.
- ✓ Turn OFF the switch before removing the plug from the socket.
- ✓ Supervision is a must, when used around children.

CLEANING AND CARE

- ✓ Ensure that the charging cable is always well-secured, so that it's never stepped on, driven over, tripped on, or undergoes any damage or stress.
- ✓ The charger should be regularly wiped with a clean, dry cloth to prevent accumulation of dirt and dust.
- ✓ Unplug the power cord before cleaning the charger.
- ✓ Use the charger only within the specified operating parameters as described in the specifications.
- ✗ Do not insert foreign objects or liquids into any part of the charger.
- ✗ Do not attempt to disassemble, repair, tamper with, or modify the charger. The charger is not user

serviceable. Contact customer support for any repairs or service.

- ✗ Do not use private power generators as a power source for charging.

⚠ WARNING!

Use of the charger may affect or impair the operation of medical electronic devices.

DISCLAIMER

Ather endeavours to ensure the accuracy of the information contained herein. However, Ather does not warrant the same. Your use of the Ather vehicle and the charger shall be governed by the terms of your agreement with Ather and other than as expressly set out in such an agreement, this user guide does not and will not have the effect of limiting, expanding or otherwise modifying the terms and conditions including but not limited to the warranties, set out therein. You acknowledge that any usage of the Ather vehicle and charger in contravention to this user guide may render your warranties invalid.
